

March 11, 1974

PRESIDENT: 682 amendment amends the amendments on page 520? Is that correct?

SENATOR RICHENDIFER: Right.

PRESIDENT: All right, let's go back again. We struck those.

CLERK: We struck the ones on 520.

SENATOR RICHENDIFER: Let's back up on those and amend those.

PRESIDENT: Move the adoption of the amendments and then we'll amend them. We'll have to breathe them back to life, I think, here. Who says we can't be confused. Stand by, Senator Marsh, unless you have something.....

(End of Belt 9A)

(Begin Belt 10A)

SENATOR STULL: The way I understand the amendment that those plates will be cream with letters in blue.

SENATOR RICHENDIFER: JUST, do you have a copy of this?

SENATOR STULL: Yes.

SENATOR RICHENDIFER: Yeah. Did the...they'll be red, white and blue actually.

SENATOR STULL: Red, white and blue?

SENATOR RICHENDIFER: Yeah, red, white and blue.

SENATOR STULL: Well, why don't we have them red and white?

SENATOR RICHENDIFER: Well, the way...Senator Stull, the way the bi-centennial commission developed this plate, possibly you saw the plate. It has a covered wagon with blue in one corner and an Indian chief in the other and then down along the bottom it has '76 Centennial '76. And this is in blue and the other two colors are red and white. Now, this is merely what they really desired and the license plate industry out here, we're trying to conform with this and this is why we had to limit it to passenger cars because we couldn't do it on the farm trucks or just the plain trucks because of the wording on there.

PRESIDENT: Senator Stull.

SENATOR STULL: I still don't like the blue on there but let's move it on over and then in the morning I'll want to move it back.

SENATOR RICHENDIFER: This is a 4-year plate. I'll try to get it back, the sample of it back tomorrow so you can see it. I move for the adoption of the two amendments to the amendments on page 520.

PRESIDENT: Okay, those in favor of adopting the amendments to the amendment, vote aye. All those opposed vote no.
